YUKI Lamp

Designed by Signe Hytte in 2021

Art no: 40170-40172

A lamp's most prominent function is not just to provide light, but to create new spaces within a room. It can accentuate a mood, spread coziness, and create a homely feel, when it lights up from its place inside a bookshelf, a windowsill, a bedside table, or the corners of a living room. MAZO and the Danish designer Signe Hytte wanted to form exactly that type of a mood creating lamp with YUKI. An expressive design that is welcoming and graceful, crafted in glass from head to toe, letting its entire body light up with a warm glow.

General information

|	
DESCRIPTION	The mouth blown YUKI lamp, which comes in the colors opal-white, blue, and olive, glows not only through the lampshade but also from the base; thus becoming as much an independent interior design object as a source of light.
